### INTRODUCTION

The 2019-2020 Fiscal Year Budget is herby presented to the Board of Aldermen for your approval. The fiscal year begins on October 1, 2019 and extends through September 30, 2020. The City Administrator, City Treasurer, Department Heads, Mayor and the Board of Aldermen met to discuss the various needs of the City and the costs associated with operating in an efficient manner. The City Administrator, City Treasurer and the Board of Aldermen "fine-tuned" the budget numbers. We believe the budget accurately reflects expected revenues and expenditures for the 2019-2020 Fiscal Year.

### **GENERAL REVENUE FUND**

Revenues for the General Revenue Fund are projected at \$3,067,110.00 with 3,067,110.00 in proposed expenditures. The General Revenue Fund reflects a balanced account. Major proposed expenses are as follows: Administration – Salary increases were given to those eligible. Seven (7) new IPADS, 3 new computers, 2 new monitors. No major expenditures were added for the Building Inspector/Code Enforcement. A new 2020 Police Utility Vehicle, radar units, pistols/shot guns, 2 new computers, 4 new protective vests and a new Dell server were included for the Police Department. The Fire Department will be receiving turn out gear, gear racks, work lights, radios, jaws of life and an extraction washing machine. Grounds Maintenance will see a new building being constructed to house Alliance Water Resources along with the completion of the Court Street sidewalk project. Separate hanger electricity will be added at the Airport along with grant funded improvements of new runway and lighting. The Street Department will pay 1/3 the cost of a new F550 Dump Truck with accessories and also purchase a skid pro snow blade for the Kubota and a tail gate spreader for Chip & Seal. New window shades and floor waxing will be completed at the Community Center.

### SPECIAL REVENUE ACCOUNTS

### **PARK FUND**

Revenues for the Park Fund are projected at \$238,000.00 and anticipated expenditures of the Park Fund (which includes the Bowling Green Municipal Pool) are to be \$238,000.00. Major proposed expenditures for the Park will be construction of a stage at the park for musical events, a new pocket park located at the Community Center, additional electric lines for vendors, and repair of concrete on the walkway. Other activities will remain the same.

### LIBRARY FUND

Revenues for the Library Fund are projected at \$107,810.00 and anticipated expenditures of the Library Fund are the same amount. There are no major capital expenditures expected for the Library during the 2019-2020 Fiscal Year.

### **CEMETERY FUND**

Revenues for the Cemetery Fund are projected to be \$48,420.00 with anticipated expenditures of the Cemetery Fund also to be \$48,420.00. There are no major projects expected for the Cemetery Fund during the 2019-2020 Fiscal Year.

### **ENTERPRISE ACCOUNTS**

### WATER AND SEWER FUND

A few years ago, the Water and Sewer Funds were separated into two Funds due to bonding requirements. The Water Fund includes revenues and expenditures of \$2,241,350.00. The Sewer Fund includes revenues and expenditures of \$1,147,925.00. The water/sewer rates will not increase during the 2019-2020 Fiscal Year. The rates are determined based upon a calculation from the Missouri Department of Natural Resources. The water rate has a base charge of \$14.01 and a user charge of \$11.80 per 1,000 gallons. The sewer rate base charge is \$7.89, plus a user charge of \$9.47 per 1,000 gallons.

### PASS-THROUGH ACCOUNT

The City of Bowling Green has a lodging tax on motel rooms in the City. The revenue from the lodging tax is collected by the City and then is a pass-through to the Bowling Green Convention and Visitors Bureau (CVB). The CVB is responsible for their own budgeting of funds. The anticipated revenues for the Fiscal Year 2019-2020 is \$66,000.00.

### **FISCAL YEAR 2019-2020 BUDGET GOALS**

The City of Bowling Green through Fiscal Year 2019-2020, and at the direction of the Board of Aldermen and Mayor, is proposing a budget which provides a balance of revenues and expenditures for each of the City's seven separate Funds. The City is covering 100% of the employee health care premium with a decrease in premium for 2019-2020. Employees will be expected to pay 30% of the health care premium for any dependent coverage.

A summary of major budget items is described as follows:

### **Alliance Water Resources Services Contract**

A 10-year contract with Alliance Water Resources was approved by the Board of Aldermen in 2009. This contract, and subsequent amendments, provides for Alliance Water Resources to provide comprehensive public works services for the City of Bowling Green. These services include water and wastewater, street and grounds maintenance, and vehicle maintenance.

The base compensation for the Fiscal Year 2019-2020 shall be \$1,217,508.00. This base compensation reflects a small increase for Alliance over the prior year.

### **TOURISM FUND**

As discussed previously, the Tourism Fund is a pass-through of a transient tax on lodging to the Bowling Green Convention and Visitors Bureau (CVB). The CVB is responsible for their own budgeting and expenditures. The CVB will continue construction on the new Visitors Center and furnishings.

### LIBRARY FUND

The Library Fund is supported through revenues derived from specific taxes, being real estate and personal property. The Library Fund is administered by a Library Board consisting of nine members appointed to three-year terms. The Fund is expected to generate \$107,810.00 with expenditures to match for the upcoming Fiscal Year of 2019-2020. There are only minor improvements to be made.

### **CEMETERY FUND**

The Cemetery Fund is projected to have a balanced revenue/expenditure budget of \$48,420.00 for Fiscal Year 2019-2020. The Cemetery is not expecting any major improvements this year.

### PARK FUND

The Park Fund receives its funding from a ¼ cent sales tax. The ¼ cent sales tax is expected to generate \$220,000.00 in revenue. The total Fiscal Year 2019-2020 Park Fund budget is \$238,000.00. Projects proposed for funding include those previously identified.

### WATER FUND

As previously indicated, the Water and Sewer Funds have been separated due to bonding requirements. The water rate will remain the same as last year (\$14.01 base charge, plus \$11.80/1,000 gallons).

Some of the more substantial proposed projects will involve replacing current meters with new Neptune radio read meters, water line repair on Locust & Main Cross with funds being taken from reserves, purchase of 10 new fire plugs, and replacement/repair of pumps/motors.

Other aspects of the water operations will remain essentially the same as the Fiscal Year 2019-2020.

### SEWER FUND

The Sewer Fund has anticipated revenues and matching expenditures of \$1,147,925.00 for Fiscal Year 2019-2020. The sewer rate will remain the same as last year (\$7.89 base charge, plus \$9.47/1,000 gallons).

Major improvements under the Sewer Fund for the upcoming fiscal year include sewer line repair on Locust & Main Cross with funds being taken from reserves, 1/3 cost of a F550 Dump Truck, ¾ ton reg cab truck with accessories (from previous year's budget), Indexx testing equipment, and pump replacements at lift station.

Other aspects of the sewer operations will remain essentially the same as in Fiscal Year 2019-2020.

### **GENERAL FUND**

The largest fund account for the City of Bowling Green is the City's General Fund. Anticipated revenues and expenditures for Fiscal Year 2019-2020 are \$3,067,110.00.

There are a number of significant aspects of the General Fund to be noted in the upcoming Fiscal Year:

- Alliance Water Resources contract amount increase of \$12,408.00 for the 2019-2020 Fiscal Year.
- Trash collection (Dayne's Waste Disposal) will increase to \$13.07 monthly starting October 1, 2019.
- Hourly increases for staff who are eligible.
- Seven (7) new IPADS, 3 new computers, 2 new monitors for City Hall.
- A new 2020 Police Utility Vehicle, 2 new computers and a new server for the Police Department.
- Jaws of life and an extraction washing machine will be purchased for the Fire Department.
- Grounds Maintenance will see a new building being constructed to house Alliance
   Water Resources along with the completion of the Court Street sidewalk project.
- The Street Department will pay 1/3 the cost of a new F550 Dump Truck with accessories and also purchase a skid pro snow blade for the Kubota and a tail gate spreader for Chip & Seal.
- Construction will start on a new roundabout at the intersection of 61/161.
- Construction will begin on a new runway and lighting at the airport.

### FISCAL IMPACT

The City operates primarily from tax revenues and user fees. The City's mission is to deliver essential services and maintain the health, safety and welfare of the community. A well-planned and balanced budget, coupled with fiscally responsible decision making by the Board of Aldermen and Mayor, will help to ensure that the City is able to deliver essential services, meet current debt obligations and leverage financing options in the future.

The City of Bowling Green will continue to seek grant funding and utilize its due diligence in making wise use of the taxpayer dollars. The reserve is expected to exceed the \$1,000,000.00 amount during the 2019-2020 Fiscal Year.

### **BUDGET PURPOSE**

Local governments serve three essential functions as it relates to the budget:

- 1) To set public policy. The budget represents the practical application of legislative policy discussion in the form of specific funding actions.
- 2) To act as a legislative control on taxing and spending by the executive branch. The legislative branch (Board of Aldermen) is entrusted with discretionary power to levy taxes and authorize spending through its approval of the annual operating budget
- 3) <u>To serve as a financial planning tool.</u> A government must plan for its financial future to ensure that its financial resources will be adequate to meet its needs, both anticipated and unanticipated.

Almost all budgets encountered in the public sector are fixed-budgets, establishing a single spending cap that management may not exceed without special authorization. In most cases, an annual budget is adopted for the General Fund.

### **BUDGET BASIS**

The City's policy is to prepare the annual operating budget for governmental fund types on the modified accrual basis. Under the modified accrual basis of accounting, revenues are recorded as they are collected unless susceptible to accrual (amounts that are measurable and available to finance the City's operations or of a material amount and not received at the normal time of receipt). Available means collectible within the current period or soon enough thereafter to be used to satisfy liabilities of the current period. Significant revenues which are considered as susceptible to accrual include property taxes, sales taxes, franchise taxes, interest and certain State and Federal grants and entitlements. Expenditures, other than interest on long-term debt, are recorded when the liability is incurred.

The proprietary fund types are budgeted upon an accrual basis, and the measurement focus is upon determination of net income or loss. Under the accrual basis, revenues are recognized when earned, including unbilled revenue, and expenses are recorded when liabilities are incurred.

### **BUDGET PROCEDURE**

In the mid-year budget cycle, the Department/Division Heads receive a budget preparation package with the forms necessary to present their budget requests. The package contains forms for expenditures, with justification included for each major class of expenditure, personnel request forms, and capital project request forms. The Department Heads project the remainder of the current year expenditures and prepare their budget requests for the upcoming Fiscal Year.

The projected revenues and expenditures are calculated by the City Administrator and City Treasurer for both the remainder of the current year and the next Fiscal Year and are retained by the Treasurer.

The General Committee of the board of Aldermen also receives the projected expenditures from the various Departments and divisions of the City. The City Administrator and the City Treasurer review and "fine-tune" the budget before presenting it to the General Committee at a budget work session.

The City Administrator and Board of Aldermen, along with the Mayor, then review and make any necessary adjustments.

After any necessary adjustments are made, the budget is presented to the Board of Aldermen prior to October 1, the start of the City of Bowling Green Fiscal Year. The Board of Aldermen reviews the budget and at a final work session, makes any changes. The budget Ordinance is then adopted by prior to October 1.

During the remainder of the Fiscal Year, the budgeted revenues and expenditures are monitored by the Board of Aldermen, City Administrator, City Treasurer and the various Departments. If any Department or Fund is shown to be in great variance from the budget, the appropriate Department Head is consulted, and appropriate modifications are brought to the Board of Aldermen for their consideration and direction.

### **BASIS OF PRESENTATION**

The accounts of the City are organized on the basis of Funds and groups of accounts, each of which is considered to be a separate accounting entity. The operations of each Fund are accounted for by providing a separate set of accounts which comprise its assets, liabilities, equities, revenues and expenditures. The various Funds are grouped by type in the budget. The following pages describe the Fund types used by the City.

### **FUND TYPES**

### **GOVERNMENTAL FUND TYPES**

The General Fund is the principal operating Fund of the City and accounts for all financial transactions not accounted for in other Funds. The general operating expenditures, fixed charges, and capital improvement costs that are not paid from other Funds are financed through revenues received by the General Fund. These include:

Administration
Building/Code Enforcement
Police Department
Community Center
Airport
Street Department
Grounds Maintenance
Fire Department

Special Revenue Funds are used to account for revenues derived from specific taxes, governmental grant or other revenue sources which are restricted to finance particular functions or activities of the City. The City of Bowling Green Special Revenue Funds include:

Park Fund % cent Sales Tax

Library Fund Real Estate & Personal Property Taxes
Cemetery Fund Real Estate & Personal Property Taxes

Street (CIP) Fund ½ cent Sales tax

The Street (CIP) Fund is supported by a ½ cent Capital Improvement Sales Tax approved by the voters in April 2014.

**Debt Service Funds** are used to account for the accumulation of resources for the payment of principal, interest, and other related costs of the City's general obligation debt, outstanding leases and bonds payable from the operations of Enterprise Funds. These include:

Leasehold Revenue Bond Series 2012

It should be noted that the City of Bowling Green undertook a bond refunding (refinancing) of its previous Leasehold Revenue Bond Series 2004 due to current favorable interest rates. This refunding approved by the Board of Aldermen, will result in a significant interest savings to the City over the life of the bonds.

Capital Improvements Funds are used to account for financial resources segregated for the acquisition or construction of major capital facilities other than those financed by Enterprise Funds.

### PROPRIETARY FUND TYPES

The City also has Proprietary Fund Types, which are different from Governmental Fund Types in that their focus is on the determination of net income or loss. The revenue from these funds is assumed to be adequate to fund the operation of the funds. The City's proprietary funds are as follows:

Enterprise Funds are used to account for operations that are financed and operated in a manner similar to private business enterprises where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods and services to the general public on a continuing basis be financed or recovered primarily through use charges or where the periodic determination of net income or loss is deemed appropriate. These include:

Water Fund Sewer Fund

### REVENUE ASSUMPTIONS

The Fiscal Year 2019-2020 governmental funds' budgets are based upon projected revenues, which include taxes, fees, licenses, lease income, interest, and other revenues. The revenue projections are based primarily upon historical data. Exceptions would be grants from other governmental entities, which are usually for a fixed amount. The City has tracked every major revenue source for a number of years, and the use of these figures are of immense help in projecting future revenues. Revenue assumptions for major revenue sources follow.

Property Taxes Based upon preliminary assessments from Pike County, the real estate and personal property tax should amount approximately to \$251,970.00 in the General Fund, \$77,800.00 in the Library Fund, and \$38,870.00 in the Cemetery Fund. A large portion of the General Fund revenues are derived from a 1% City sales tax on all goods and commodities sold within the City of Bowling Green. This amounts to an estimate of \$910,000.00 for the upcoming Fiscal Year. This revenue goes to the General Fund to help finance City services.

Transportation Tax This is a ½ cent sales tax that funds transportation improvements. State Statues used for bonds require that revenues from this tax be used on the repair, maintenance or construction of streets and other transportation elements. Specifically, in Bowling Green these funds are for street, the airport and the roundabout improvements. This amounts to an estimate of \$435,000.00.

**Franchise Taxes** The franchise taxes come from the electricity, gas, telephone and cable television. This is estimated at approximately \$321,000.00 for the upcoming Fiscal Year.

These are the major sources of revenue for operation of the General Fund in addition to funds coming from licenses and permits and other services.

**Proprietary Funds** The Board of Aldermen has reviewed the revenue needed for operations under the Water and Sewer Funds. These rates are determined based upon a calculation formula obtained from the Missouri Department of Natural Resources.

The Board will monitor the rates for the water and sewer to fund the operation and maintenance as well as establish needed depreciation and replacements, capital improvements and reserve accounts.

The present and proposed rate established by the Board will remain the same during 2019-2020:

### Water

City - \$14.01 base charge, plus \$11.80 for every 1,000 gallons of usage.

NECC rate - \$8.79 for operation and maintenance

After the current contract with NECC expires in June of 2020 the water rate will decrease to \$7.67 per a new agreement with NECC paying for metered water usage.

Ameren rate- \$11.87

### Sewer

City - \$7.89 base charge, plus \$9.47 for every 1,000 gallons of usage.

NECC - \$1.83 for operation and maintenance of new wastewater SBR treatment facility of which they are the only contributor.

After the current contract with NECC expires in June of 2020 the sewer rate will increase to \$3.19 per a new agreement with NECC.

Other Revenue Sources The City will charge the Enterprise Funds an administrative fee for services rendered to handle the billing and collection of fees and other administrative duties associated with these Funds. The Funds from these enterprise operations will be as follows:

Water	\$77,000.00	Cemetery	\$ 750.00
Sewer	\$44,500.00	Park	\$9,000.00
SBR	\$44,500.00	Library	\$ 960.00

These would be allotted for work done to process the operations of billing and collection for the actual time and then transferred on a monthly basis.

### **BUDGET AMENDMENT PROCEDURE**

Although the City tries to avoid amending the budget, sometimes an amendment becomes appropriate. An amendment may be needed for an emergency situation, an overrun on a budgeted capital item due to price fluctuations, a change order on a major contract or unanticipated revenues/expenditures. The City attempts to give Department Heads some latitude in handling their budgets. As long as a Department or Fund stays within the budgeted total for operating expenditures, a Department Head may shift funds from one-line item to another without a budget amendment. Two exceptions to this procedure are personnel services and capital outlay.

If an amendment is needed, the following explains that procedure: The originating Department reports the need to the City Administrator. The City Administrator makes the General Committee aware of the request. The General Committee will ascertain whether funds are available, and a meeting of the General Committee will determine to recommend or reject the amendment before it is presented to the Board of Aldermen as-a-whole.

Following action, the City Administrator will notify both the originating Department and the City Treasurer so that the appropriate action may be taken.

### CAPITAL IMPROVEMENTS PROGRAM

In order to promote the orderly physical development of Bowling Green, a planning process is followed which takes into account the goals and objectives of the Comprehensive Plan, the needs of the individual City Departments, and the City's financial capability. The end result of this planning process is a long-range schedule of public construction and improvement projects known as the Capital Improvements Program (CIP).

A capital improvement is defined as an expenditure of public funds beyond normal maintenance and operating costs for the acquisition, construction or renovation of a needed physical facility. Improvement or acquisition of a permanent nature representing a long-term investment may be considered as a capital improvement. A Capital Improvement Program is merely a method of planning for these types of improvements and scheduling the expenditures over a period of several years. It is a means of coordinating a physical development plan with a financial plan. The Capital Improvements Program is limited to projects which are within the City's authority to undertake and does not include capital equipment needs which are included in the operating budget.

The Capital Improvements Program is an orderly schedule for the expenditure of City funds for major public improvements. It is a Board of Aldermen function directed in assuring that:

- 1. City funds will be spent for improvements compatible with community objectives and with Board of Aldermen policies.
- Projects will be undertaken on a timely and coordinated basis.
- 3. The community will be informed that certain projects and expenditures are to be expected.
- 4. Improvements will be undertaken without causing an undue burden on the City's financial capability.

Currently capital improvements are funded as part of the City's regular operating budget.

### **DEBT SERVICE**

The City has incurred long-term debt for purposes of major capital construction.

### **Present Types of Debt**

The City presently has two types of outstanding debt. They are long-term and short-term. Long -term debt is for a leasehold revenue bond and revenue bond debt. The short-term debt is considered for lease agreements for large equipment purchases.

The City has the following outstanding debt:

### Long-Term Debt

Long-term debt for the Water and Sewer Fund consists of bonds issued from USDA Rural Development. The total amount authorized is \$3,498,000 and is being used to fund the improvements to the water and sewer system of the City.

Long-term debt in the Water and Sewer Fund consists of the 2003B Combined Waterworks and Sewerage System Revenue Bonds (State Revolving Fund Program), 2003C Combined Waterworks and Sewerage System Refunding Revenue Bonds (State Revolving Fund Program) and a payable loan. In November 2003, the City entered into an agreement with the Missouri Leveraged State Water Pollution Control Revolving Fund Program to sell \$5,560,000 in Combined Waterworks and Sewerage System Revenue Bonds, Series 2003B. In November 2003, the City entered into an agreement with the Missouri Leveraged State Water Pollution

Control Revolving Fund Program to sell \$3,160,000 in Combined Waterworks and Sewerage System Refunding Revenue Bonds, Series 2003C.

In September 2009, the City entered into an agreement with Alliance Water Resources, Inc. for upgrades to the aeration system at the City's wastewater treatment plant in the amount of \$114,650. As of the 2019-2020 budget, this debt has been satisfied.

Long-term debt of the City of Bowling Green consists of Bowling Green Municipal Assistance Corporation Leasehold Revenue Refunding and Improvements Bonds Series 2004-A and Series 2004-B. These bonds were refunded on October 3, 2012. The total amount authorized is \$1,335,000.

In October 2014, the City issued \$651,800 and in July 2015, issued \$1,235.00 in Certificates of Participation for the purpose of acquiring, constructing, installing, repairing, and equipping certain road and street improvements with principal and interest payments due in February and August of each year. This is being repaid by a ½ cent sales tax that was passed.

### Payable Loan

During 2008, the City entered into a Sales Tax Agreement with Bowling Green Town Center, LLC (Developer). During 2010-2011, the project was completed, and the City began re-payment. Quarterly payments from tax revenue generated from Walmart are due under the lease. As of September 2019, the total outstanding balance on the loan is \$ 982,659.55.

In the 2019-2020 Fiscal Year the City of Bowling Green will be looking to enter a loan to fund half the cost of the roundabout to be constructed at the intersection of 61/161. This is a 50/50 cost share project with the Missouri Department of Transportation. The total cost of the project is estimated to cost \$1,420,980.00, with the City of Bowling Green paying \$710,490.00 and the Missouri Department of Transportation paying the remaining \$710,490.00.

### **DEBT SERVICE POLICY**

The Board of Aldermen has set policies to be sure the City meets its debt service payments in a timely manner. Any new debt will be issued only after careful consideration and as part of the annual budget. Briefly summarized, these policies include:

- Conservative revenue projections
- Rate increases based on related costs of services provided and the impact of inflation on these services.
- Lease purchase of equipment and real property when practical and prudent.
- Accumulation of adequate reserves to protect the City from uncontrollable expenditures or unforeseen reductions in revenues.
- Issuance of debt only after rigorous testing and if there is an appropriate balance between service demands and the amount of debt.
- Setting a target debt level for general government service.

### PROPERTY TAX AND OTHER TAXES

The City has property taxes assessed for owners of property within the City limits. The property tax accounts for approximately 7% of the City's General Fund revenue. The City is approved by State Statute to set property taxes for General Fund special purposes such as libraries, hospitals, public health, museums and recreation.

Tax rates are set each year by local governments within the limits set by the constitution and State Statute. They are based on the revenues that had been permitted for the prior year, with an allowance for growth based on the rate of inflation and new development. The resulting tax rate becomes the permitted rate for the year it falls within the ceiling permitted the local government.

In addition, there are two taxes that are collected by the State and shared with the City. They are the financial institution tax and the motor fuel tax.

The financial institution tax is a State tax imposed on banks, savings & loans and credit unions within the City limits.

The motor fuel tax is shared with all municipalities with over 100 persons of population. This share of the State highway fund, includes revenues from the motor fuel tax, license and registration fee, and one-half of the regular State sales tax on automobiles.

The tax rate calculation for the coming tax year is based on the current year assessed valuation minus the assessed value of new construction to arrive at the adjusted current year assessed valuation. The assessed valuation for the previous year is then put into the equation to get the percentage of increase in adjusted valuation and the consumer price index. The calculations will then derive the maximum tax rate permitted by Missouri State Constitution, Article X, Section 22 and RSMo Section 137.073.

The City property taxes for Fiscal Year 2019-2020 per \$100 of assessed valuation will be: General Fund \$273,429.00, Cemetery Fund \$42,158.00 and Library Fund \$84,402.00.

### **SALES TAX SCHEDULE**

Sales tax is paid within the City limits for normal purchases (excluding sales taxes assessed for utility usage). The sales tax assessed within the City limits is assessed depending upon the commodity purchased or service. The usual sales tax for sales in the City of Bowling Green is 8.475 %. The sales tax rate portion for the City of Bowling Green for Fiscal Year 2019-2020 is \$2.25%. This includes all State, County, and City sales tax assessments. The breakdown is as follows:

4.000%	State Sales Tax
0.125%	State Conservation Tax
0.100%	State Parks & Soil Tax
0.500%	County General Sales Tax
0.500%	County Law Enforcement Tax
0.500%	County Road & Bridge Tax
0.500%	County Ambulance Tax
1.000%	City Sales Tax
0.500%	City Transportation Tax
0.250%	City Parks Tax
0.500%	City Capital Improvement Tax
<u>0.5625</u> %	E 911 TAX
9.0375%
